Subject: COVID- 19 Emergency

Implementation of art.15 paragraph 3 of decree-law 17 March 2020, n.18

Extraordinary validation of personal protection equipment

THE EXECUTIVE DIRECTOR

In accordance with the decree-law March 17th 2020, n. 18, converted with modifications by the law April 24th 2020, n. 27, containing "Measures to strengthen the National Health Service and economic support for families, workers and businesses connected to the epidemiological emergency from COVID-19";

In accordance with the article 15 of the above mentioned decree-law, entitled "Extraordinary instructions for the production of surgical masks and personal protection equipment", which contributes to the management of COVID-19 emergency and until the end of the state of emergency declared in the resolution of the Council of Ministers on January 31st 2020, the production, import and placing on the market of surgical masks and personal protection equipment in exemption of the current orders;

In accordance with paragraph 3 of the same article 15 which provides for individual protection devices a validation procedure carried out by INAIL on the basis of a self-certification of the manufacturing companies and importers, certifying the technical characteristics of the mentioned devices and compliance of all safety requirements pursuant to current legislation;

In accordance with the notice by Italian Department of Health of March 18th 2020, published on the website www.salute.gov.it, where interpretative elements were provided regarding the application of the above mentioned article 15;

In accordance with the operational instruction note of March 19th 2020 concerning "Emergency COVID - 19 Implementation of art. 15 of decree-law of March 17th 2020, no. 18. Extraordinary validation of personal protection equipment" published on the website www.inail.it;

Certifies that this is an extraordinary validation, valid for the time strictly necessary and as long as the state of emergency COVID-19 lasts, in the impossibility of carrying out the ordinary procedures for checking the quality and safety standards of the devices;

Considering the CEM of 8, 22 and 24th of April 2020 (prot. nn. 5744, 8246 and 8888), the CEM of 8, 12 and 21th of May 2020 (prot. n. 12765, 13666 and 15783), Mestel Safety Srl, manufacturing the following product:

Full-face snorkeling mask connected by a specific adapter called APA to a P3 model filter;

Taking into account the exemption provided in article 15, paragraph 3, of the decree-law March 17th 2020, n.18 INAIL has sent to this Institute the required self-certification foreseen by the above mentioned provision and related supporting documentation, by which, under its own exclusive responsibility, it has certified the technical characteristics of the device and has declared that it complies with all the safety requirements of the current legislation;

Received the technical evaluation made on May 5, 17th and 24th 2020 by the technical-scientific Department of the Institute on the basis of the declarations reported in the self-certification and the documentation provided by the applicant;

As a result of a successful technical evaluation, the Institute

DECLARES

That the following Personal Protection Equipment is in compliance with the current regulations:

- "Full-face snorkeling mask connected by a specific adapter called APA to a P3 type filter" produced by Mestel Safety srl.

This declaration is valid from the date of this provision until the end of the state of emergency referred to the resolution of the Council of Ministers on January 31st, 2020.
